Brayco Story - 20 Years of History 20

Welcome to Brayco

Do you want to be the best in the business? We do. Of course 'the best' is subjective, so for us it means providing the highest quality steel benches, sinks and shelves at low prices for great customers. Cast your eyes over the full range inside to spark inspiration for what will work for your commercial space. Brayco has been around for 20+ years and we're still growing, but if you need further convincing that our most excellent products and service are for you, visit us in-store or give us a call 09 271 5000

Why are you so much cheaper than your competitors?

Seriously, we are asked this question all the time. The answer is that we directly import from an enormous Chinese manufacturer. We sell direct to the customer. No distributors. No middlemen. Also, we keep overheads down and we price the products accordingly.

Do you deliver? Can I pick up? How much to freight it?

We deliver coast-to-coast around New Zealand but of course you are welcome to pick up from our Auckland branch, or use your own courier. Give us a call and we can give you an accurate price to get your order to you quickly and without fuss.

Can you make up a bench to a specific size?

No, we don't manufacture to size. We stock a large variety of bench sizes and we are confident we can configure a bench layout to fit most spaces. However, if you require 50 or more benches of a specific size, please call us to discuss.

Do you have everything in stock?

Yes, almost always. We believe that we have the largest stock of modular stainless steel products in the country. However, sometimes we get fooled by spikes in demand (this is a fancy way of saying that we either made a mistake or a customer ran us out of something). But we re-order quickly and can still get products to you faster than most local fabricators - and loads cheaper of course.

Need More Info?

We now have even more useful videos for assembly and information on Brayco products. Scan to view.

Did You Know?

Brayco's chrome and epoxy wire shelving is 15% thicker compared to other competing brands.

Here are 4 factors that make selecting Brayco wire shelving a smart choice:

Increased Load Capacity

Brayco wire shelving supports heavier loads without sagging or bending.

Longer Lifespan

Thicker units are less likely to wear down or become misshapen over time.

More Stable

Thicker and stronger shelving has less risk of wobbling or shifting – crucial for maintaining the safety of stored items and preventing accidents.

Professional Appearance

Thicker wire shelving can give your storage area a more professional and organized appearance, perfect for spaces where aesthetics matter.

View the full range on page 16 & 17.

Eco Friendly

Brayco Stainless Steel is made from 95% recycled materials.

Flat Benches

from $179

MODULAR Sinks, Cabinets & Benches

When you buy from us, you are buying directly from the importer.

No distributors. No middlemen. We keep overheads down and we price the products accordingly.

Compare the quality. 304 Grade Stainless Steel

Code: 3036 $374
914 (L) x 762mm (D)

304 Grade

The industry standard stainless steel grade. It is highly resistant to corrosion. We use 1.2mm thick stainless steel which is 20% thicker than some benches on the market. Legs are stainless steel. Undershelves are galvanised.

Adjustable Shelf

Each bench comes with a high quality 1.2mm galvanised undershelf, this thickness is vital to stability. Fully height adjustable.

Flatpack

Benches are supplied flat packed for ease-of-handling and to lower freight costs. It takes about 15 mins to assemble a bench with the supplied allen key and screws.

Feet or Castors

Benches are supplied with feet that screw out an extra 18mm. Upgrade to screw your benches to the floor with screw in feet and legs or add lockable castors for a mobile bench.

Brayco now offer a leg cutting service & can supply longer legs should you require a different height of your bench or sink.
Leg cutting service for shorter legs
Code: CUT-SL $55 per set of 2 legs

Supply longer legs to make your bench or sink higher.
Code: CUT-LL $110 per set of 2 legs

PLUS:
Screw down feet and galvanised legs
Set of 2 - $49 Code: GFEET2

304 VS 430 Grade Steel

Brayco's 304 grade stainless steel benches are the ultimate choice for an impervious food preparation surface that is durable and hygienic.

This high-quality steel is the preferred choice for professionals in the catering industry.

For budget-conscious users, 430 grade stainless steel benches are an excellent choice. While they are still highly durable, they may exhibit slightly less resistance to corrosion compared to the 304 grade, making them a practical and cost-effective option for non-commercial applications.

*Prices include GST. Prices vary due to raw material and exchange rate fluctuations and are subject to change without notice.

Extra Leg Options

All benches are supplied with stainless steel legs and height adjustable feet. We offer you options to upgrade to suit your requirements.

Screw down feet and stainless steel legs

Set of 2 - $59 Code: SFEETCDX

Screw down feet with high grade stainless steel legs, recommended for extremely salty or chemical conditions.

Set of 2 - $79 Code: SFEET2

High quality heavy duty lockable castors with stainless steel legs.

Set of 2 - $74 Code: WHEELSSCDX

High quality heavy duty lockable castors with high grade stainless steel legs.

Set of 2 - $89 Code: WHEELSS2

High grade stainless steel legs & feet

Recommended for use in extremely salty or chemical conditions or for that extra sparkle. Adjustable feet ***Set of 2 - $59*** *Code: SLEGS2*

Need an extra legs or to replace old legs?
(They are the same stainless steel legs with adjustable feet that are supplied with each bench)

Set of 2 - $34 Code: SLEGSCDX

*** Benches with 6 legs will require 3 sets of legs.*
All other benches require 2 sets of legs.

Shorter or longer legs

Brayco now offer a leg cutting service & can supply longer legs should you require a different height of your bench or sink.

Leg cutting service to shorten legs:
Code: CUT-SL $55 per set of 2 legs

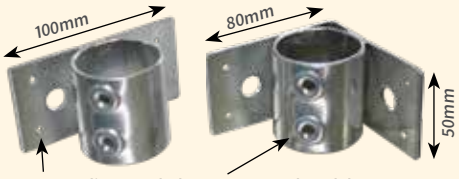

Supply longer legs to make your bench or sink higher:
Code: CUT-LL $110 per set of 2 legs

Enclose Your Bench

Attach panels (wood, mdf, acrylic) to bench legs so you can enclose the under space. Great for turning a simple bench into a stylish cabinet.

Here's how Leg Attachments convert a stainless steel bench to an enclosed mobile coffeecart.

3mm diameter holes to secure to panel

Secure to bench leg with grub screws

Code	Attachment	PRICE*
LEGATTS	Straight leg	$12
LEGATTC	Corner leg	$12

DRS $244 *DRS60 $264* *DRD2 $409* *DRD $454*

Lockable Drawers

Key lockable drawer units can be added to most of our benches for a quick, cost effective storage solution.

Code	Length (mm)	Depth (mm)	Height (mm)	Drawers	PRICE*
DRS	520	450	150	1	$244
DRS60*	670	450	180	1	$264
DRD2	520	450	365	2	$409
DRD	525	450	480	2	$454

- *Inside drawer measures 420 x 420mm.*
- *Key lockable drawers.*
- *Fits 610mm deep and above benches with minimum of 600mm width between legs.*
- *DRS60: min. 700mm width*

NB: measurements include external brackets.

Shelf Options For Your Bench *Upgrade Your Undershelf...*

Replace the standard galvanised shelf supplied with your bench with a stainless shelf. Recommended for extremely salty or chemical conditions - or if you want that extra sparkle.

EXAMPLE : To upgrade a bench code 2436 (normal price $349) - you can get just the stainless steel undershelf (see right - add $104) and/or high grade stainless steel legs (see above - add 2 sets $59 X 2). Total : $571

Replace Your Shelf With a Leg Brace Rail Kit

Remove your shelf and add leg brace rail kits for extra strength & stability.

These stainless steel rails can be fixed anywhere on the front, back & sides of bench legs. Rails are designed to support your bench when removing the undershelf to allow for extra storage room such as a dishwasher, washing machine, etc. Rails are sold as kits but you can also ask for individual component prices.

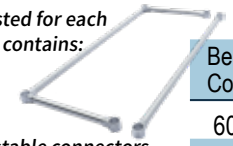

Rails can be fixed at any height. Remove front rail to fit a fridgetor dishwasher underneath.

Need to know more?
Scan for more information

MORE ECO SIZES AVAILABLE

Our Eco flat bench range has expanded. If your bench size is not listed below, please refer to the Eco splashback bench sizes on page 7.

Kit prices are listed for each bench. Each kit contains:
2 x side rails,
1 x front rail,
1 x back rail,
6 x height adjustable connectors.

We can customise a kit for you. Please call for advice.

3 Way Attachment
Available to purchase separately
$14 each

CSB900	Full Range	900mm	$64
CSB1000	Full Range	1000mm	$69

Jam-packed with quality upgrades – at surprisingly low prices.

Fully Stainless

All benches are fully stainless, but keenly priced. The legs are stainless, the undershelves are stainless.

Extra Strong

We've added an extra support bar and square leg construction. The result? Benches that could repel an army invasion!

Noise Reduction

We've lined the underside with a polymer layer that reduces noise by a huge amount. Kitchens can be noisy but not with our benches.

18+ Matching Sinks & 9+ Other Matching Benches

We've expanded our range of matching sinks and the PREMIUM 610mm range also matches 610mm flat benches and cabinets. Truly thousands of layout options.

Shelf Options For Your Bench

Upgrade your galvanised undershelf to stainless steel.
Recommended for extremely salty or chemical locations.

Sinks

from $539

Why are commercial sinks so expensive?

We have absolutely no idea!

MODULAR Sinks, Cabinets & Benches

Construction
Our very sturdy sinks are fully stainless steel, even the screws.

Bowls
All bowls are 300mm deep and mostly 500mm long by 450mm wide, some variations. Fully welded & STRONG.

Tap Location
There is room between the sink and the splashback, through the actual splashback or you can even mount taps from your wall.

Splashback
700mm and 610mm sinks come with a splashback height of 150mm. The 450mm sink features a more compact 50mm splashback. All sink splashbacks are designed to align with the splashback benches.

Sink Drainer
Sink drainer are supplied with every sink.

Also avaiable to purchase separately at $24 each.

BD $24

Waste Drainer
Fixed Strainer with a removable basket and plug.

Easy to assemble. Can be retro fitted to 90mm oulet.

SSBW $229

Tap Hole Cutting Service
A 35mm TAP HOLE CUTTING service available on request.
Code: CUT-H $55 per hole

Overshelves

See page 3 for sizes and prices.

- Supplied with 2 shelves. Adjustable middle shelf.
- Extra shelves available.
- 800mm high - can be cut to reduce height.

Premium Coolroom Shelving

Rust Resistant
Our Premium Coolroom Shelves are made from a combination of plastic and aluminium making them rust and mould resistant. Perfect for wet areas.

Huge Load Capacity
Each shelf will hold a substantial amount of weight. Heavy duty aluminium rails and posts, plastic shelves and a patented locking system that ensures the unit carries the weight required in any kitchen.

Perfect for all your coolroom storage needs. Up to 250kg per shelf. (150kg per shelf for longer units.) For shelving with wheels 85kg per shelf. See website for further details.

Quick and Easy to Assemble
All components snap together with ease.

Suitable for Cold Temperatures
Premium shelving can with stand temperatures from -38 °c to 88 °c

Completely Versatile
Mix and match lengths, depths & heights maximise the space in your coolroom. You can even customise by cutting the shelf length to size. Corner attachments mean fewer posts allowing for better access.

Dishwashable
All slats are easy to remove which makes cleaning a breeze. Wipe clean any spills or just pull out and wash in the sink or dishwasher.

Adjustable Height Shelves
Each shelf is fully height adjustable. Each bay comes with 4 shelves and it's easy to add more to suit your storage needs

Adjustable Feet
Supplied as standard and adjustable up to 30 mm.

Assembly is easy
Scan to watch the assembly video now!

Resistant to rust and mould. Load capacity up to 250kg! Mix and match lengths, depths & heights to suit your space.

Mobile units

Adjustable feet

NO CORNER POSTS
More access to your space.

Premium Shelving is extremely versatile. Give us a call, we can guide you through it.

Fits Any Space • Strong • Washable

VERSATILE SHELVING
Simply add an extra bay to your 1st Bay for a straight configuration. Use a connector pack to create an 'L' or 'U' shape.

Shelving in straight configuration. 1 complete bay with extra bays added.

How to Create Your Configuration

STEP 1: *Measure the two or three walls you wish to fill and decide on the depth (355, 450 or 610mm) and height (1700, 2000 or 2450mm).*

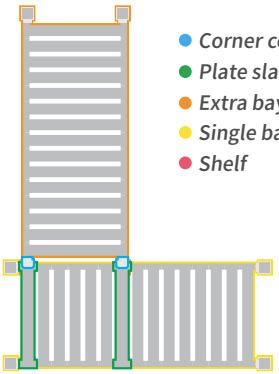

STEP 2: *Decide on how many complete bays, extra bays or extra shelves you will need to create your shelving configuration:*

'U' Shape: *To create a 'U' shape configuration you will need 2 complete bays and additional shelves for the middle of the 'U' shape (see below). And simply order a connection pack to fit the depth of each complete unit.*

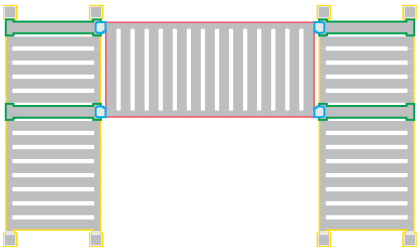

'L' shape: *When connecting the 1st Bay to the Extra Bay to create an 'L' shape you will need 1 connector pack for the depth of the 1st bay. The connector pack contains 2 Corner Connectors and 2 Plate Slats with slots for each shelf.*

Straight: *Simply add your extra bay to the end of the 1st Bay. No extra parts are required.*

Wire Shelving FAQs

70,000 + sold

How do you put them together? Can I put the shelves at any height?
Each shelf comes with four clips. Simply snap lock them onto the grooves on the upright posts. Slide the shelf over the post until they hit the clip, apply a bit of pressure and the shelf is locked in place. You can put the shelves anywhere along the upright to suit the required shelf height.

Can I buy extra shelves?
Of course you can! See the price charts on page 17.

What are the load capacities of wire shelving?
Load capacities are 150kg per shelf.
For shelving with wheels the overall weight capacity of the unit is 240kg (SHWHEELS $59) or 320kg with the heavy duty wheels(SHWHEELS-HD $99).
Higher capacity shelving (up to 250kg) is now available with the Premium Coolroom Range on page 14.

What if I have an uneven floor?
Each post has a small adjustable foot.
Simply screw it out to level your shelves on an uneven floor.

How are these shelves made?
These shelves are made of steel, then dipped in either chrome or an epoxy resin.

22 years ago, I ordered the first container of stainless steel benches and Brayco was born. . .

Brayco

Together, We Have Made a Truly Impressive Sandwich

22 years ago, I ordered the first container of stainless steel benches and Brayco was born. That container had 8 stainless benches in it, no sinks, just benches.

When it arrived, I wasn't disappointed with the quality, so I shoved a few ads in the local papers and put up a few auctions on eBay to see how these few products would sell. Well, bugger me, the phones starting ringing and within 6 weeks, I was back ordering the second container. I drafted my Brother In Law Dan in to help sell them. This container had 15 products. I was going out on a limb now. Now we had some wall shelves and a single cabinet crammed in. What recklessness! My wife and a few of my friends started asking whether I would saturate the market.

Who would want that many stainless steel benches? Why are they so popular?

These are disturbing questions. When you've found something you like doing and it's going well, you don't like to think it'll just fizzle out. The fun part of business is the growth. The connection with colleagues and customers. So, I started asking the customers why the hell they were buying so many benches from us. If I didn't know the answer, maybe they would.

Could we do even better? Could we grow?

The customers said it basically came down to 4 simple things:

1. **Quality** *The benches had to be good quality — sturdy, built for purpose and durable.*
2. **Price** *We were priced well below the lazy competitors who'd been price gouging for decades.*
3. **Availability** *Customers liked being able to get their stuff same day, not wait for weeks.*
4. **Range** *We had an OK range of sizes, but they would have bought more if we had more to offer.*

So, armed with this knowledge, we decided to make sure we followed these 4 ideas. We call them the 4-Pillars.

And now, 20+ years later, you can see the result.

- *Those 8 products have turned into a mind boggling range of over 1,200 products. Benches, sinks, shelves, cabinets, chairs, tables, wheels and taps in a vast assortment of sizes, styles, materials. So, range is covered.*
- *In 2003, we had a 96 square metre warehouse in Perth. Pokey. Now, we hav over 20,000 sqm of warehousing across Australia and New Zealand — we are available. Pick it up same day. Buy online. Ring. Whatevs.*
- *And price? Well, in 2005 our smallest bench was $199. Today, despite a pandemic, a global financial crisis, and rampant inflation across wages, warehouse costs, freight and everything else thrown up at us, that same bench is $249. And we'll bring the price down if we can.*
- *As for quality, we have tirelessly worked to improve the strength and quality of the products we sell. Crap doesn't sell for long. And if something goes wrong we'll fix it.*

The result of all this? Each year now, we expect to sell over 24,000 shelving units, over 50,000 benches, sinks and cabinets and 60,000 chairs. That's a lot. Hard to visualise, but let's give it a go. . .

Let's imagine that we got all of our customers together to make a sandwich, the biggest sandwich in the world. The current world record for the biggest sandwich is 74 metres. But I think we can do better.

Let's put all the benches together that you guys have bought in one long line to form the longest bench. If we started building it on the outskirts of Newcastle, then it would wind its way down the coast through Sydney and end up somewhere in the middle of Wollongong. The bench would be 255,000 metres long. That's quite a big bench. And we'd need a lot of butter. And a lot of people. And let's hope there isn't a shortage of lettuce when we do it.

But luckily, we have a lot of customers that might pitch in to help. There are 143,412 current customers of Brayco and Chairforce, enough to fill both the MCG and the SCG. If we all pitched in, I think the sandwich wouldn't take long to make at all. Wouldn't take long to eat it either.

So, thank you lovely customers. The Brayco team are wholly reliant on your goodwill and continued custom. We hope to earn it. We are committed to the 4-pillars approach — and hopefully, together, in another twenty years time, we can make a sandwich to stretch from Sydney to Melbourne and beyond.
