CARE OF YOUR TABLE TOPS

These table tops are tough and will last a long time if a little care is taken. Follow these simple tips to enjoy your top for years to some.

These tops are suitable for indoor & alfresco use. We recommend you do not leave in the sun for long periods of time. Table tops heat up in direct sunlight (especially dark colours), which may cause the wood to expand, resulting in a slight bow.

Water resistant. We recommend to wipe spills immediately. Leaving tea, coffee etc on a table top can lead to staining and reduce the life of your top.
